# COMMERCIAL INTELLIGENCE

Hongkong, Thursday Evening.

The Opium market has been feverish and ex-

cited to-day, induced to some extent by the

Reiver having been outside since morning, and

new Patna \$650, old Patna \$630, and Benares \$615. About 3,000 chests in all are expect ed from the second side, and high rates are reported as ruling at Calcutta on the 18th ult. A fair business has been doing in Malwa at 3790. The market closes very firm with an upward tendency. In the other markets trade has been extremely duli to-day there being scarcely any disposition on the part of either buyers or sellers for business. The state of the weather had no doubt affected trade somewhat to-day, but the prevailing duliness is mainly due to the absence of any demand whatever for goods. The great searcity of money among all classes prohibits any speculative movement whatever, and the purchases from day to day can therefore only be for the immediate wants of consumption in this colony and those places in the vicinity that make this a base of supplies and are dependent upon it. Transactions to day embrace 450 bales Ningpo Cotton at n either being reported to day. Some interesting statistics are furnished in regard to our commercial relations with California in the yearly summary of trade at the port of San Francisco nublished in the last advices received from that place. From these it appears that during the year 1866 the total value of our imports from thence had increased \$150,000 over that of any previous year, est consumers of many articles of their lomestic Produce. During the year 1866 43 vessels representing a tonnage of 27,130 tons cleared for China, while 40 vessels representing a tonnage of 24,662 tons arrived at San Francisco from this place. These vessels brought to us 2,998 passengers, 204,872 sacks of wheat worth 8389.984, 108.788 barrels of Flour worth \$631.759. 10.252 flasks of Quicksilver worth \$346,464, and other articles of produce valued at over \$170,000 beside Treasure to the amount of \$6,536,558 or an average of over half a million a month. From there figures it is evident that we are some of our largest and most important supplies nection with the new and increased facilities munication with our neighbours of the Pacific the touch of the gold or silver bought by their country, and the increase in English employed to be uninhabitable; French troops are ordered one of the most important to China as well as to from thence during the year amounted to \$1.534.769 an increase as has already been stated over last year and there is no reason why during the current year the increase should not be very much in excess of even this. Beside this; Cali forms must continue to purchase more largely would seem probable that San Francisco is soon to become the "toll gate" as it were
